Subject: Use of Force

LT,

Hey, I wanted to update you in reference to the use of force you gave me to look into. I spoke with Nick, Nate and Larry. Nick stated that when he arrived he saw the damage to both the front and rear door of the residence and he was told by Nate that the suspect had just fled the scene. He stated he was acting in "good faith" with the belief that a burglary had been attempted. He got Spike and began to track. His K9 useage report explains the rest. He stated that he DID NOT give any commands before Spike bit the suspect. He stated that when Spike does a track he is trained to initiate a bite when someone is found. He doesn't tell him to bite, that is what he is trained to do. He went on to explain that he trains with the other dogs in the County and they are all trained the same way. This is the common practice of the dogs for safety of the handlers and the dogs. Once Spike initiated the bite Nick began to give commands to the suspect and when those commands were followed Spike was taken off the bite.

I spoke with Nate about his statement included with his NIBRS report. Nate stated that he put the statement about commands being given referring to the suspects initial refusal to comply while being bitten by Spike. Nate did not hear any commands given before the suspect was bitten. I spoke with him about the chain of events and confirmed that he did not see the suspect running from the house but was told by the reportee that the suspect had just ran away seconds before they arrived.

I spoke with Larry in reference to the use of force report. I inquired why he checked the "Demanded" box for verbal commands. He stated that he listened to the recording and could hear Nick advising the suspect to "show me your hands" and felt that because of that he was making demands. I explained to him that this category on the use of force is referring to verbal commands given PRIOR to force being used not while or after the force is being used. He stated that he was unaware of this and that it would not happen again.

I also spoke with all of them about the importance of confirming that a crime has been committed if at all possible before initiating a track. The "victim" was visible inside the residence and I spoke with them about the importance of speaking with her before the track to determine if a crime had been committed. I told them that there should never be a question of "what are we going to charge him with" after any force has been used. By speaking with the victim before hand that question could have been avoided.

In summary all parties agree that there were NO commands given before the suspect was bitten. Nick advised this is because the suspect was hiding and his dog is trained to engage a person located during a track. Statements made by the reportee and evidence at the scene were sufficient for them to believe that a burglary had been attempted and I believe they were acting in good faith. All of them were very receptive to the discussion about confirming information with a victim, if possible, before starting a track.

I have put all of the reports back into your box. I did not correct any of the items that we discussed. The reason being is that Nate has already filed charges in County and a copy of the reports were given to the Prosecutor when the charges were filed. I didn't think that it would be wise to rewrite reports that have already been given to the Prosecutor for charges. But I did advise Larry and Nate you may want them to revise their reports.

Thanks,

Dan

Narrative Summary – Include detailed description of officers action: On 9-2-06 at approximately 2331 hrs County Supervisor 8P30, Sgt. Dulle, requested Officer Clark and K9 "Spike" to respond to 2494 Brookview Dr. to help with a track. The reason for the call was to help find a Domestic Violence suspect, David Brogan, that had fled out the rear door of the above residence. The County units were searching for Mr. Brogan with regards to him striking Jessica Kirby in the face with a beer bottle and breaking her nose. After Officer Clark arrived with K9 "Spike" he began to track thru woods at the rear of the residence, Deputy Lauffer acted as the back up Officer. After tracking into and then beyond the woods K9 "Spike" turned and went back into the woods a short distance. At this point Officer Clark heard Deputy Lauffer giving verbal commands "get your hands up and come out now" repeatedly. Mr. Brogan refused to comply with the verbal commands being given by Deputy Lauffer. At this point K9 "Spike" was released into the area where Mr. Brogan was hiding. K9 "Spike" located Mr. Brogan hiding under some bushes and engaged him, biting Mr. Brogan in the upper part of his left arm. Mr. Brogan struggled with K9 "Spike" and Officer Clark grabbed Mr. Brogan by the feet and pulled him from his hiding place, immediately removing K9 "Spike" from the bite. Mr. Brogan was taken into custody by the Warren County Sheriffs Department and transported to Middletown Hospital to be treated.

9-3-06

Post-case synopsis of canine apprehension involving David A Brogan Occurring at 2494 Brookview Dr. Middletown, OH 45044 Warren County Ohio on 9-2-06 at 11:19 pm.

On 9-2-06 at approximately 2319 hours Warren County Deputies responded to a call of a domestic violence situation at 2494 Brookview Dr. Upon arrival Deputies discovered a female victim (Jessica L Kirby) to have been struck in the nose with a bottle. Ms. Kirby was bleeding from the nose and hand and Sgt. Dulle believed that Ms. Kirby's nose was broken. Ms. Kirby stated that her live-in boyfriend, David A Brogan had assaulted her with a bottle in the face and fled out the rear of the residence upon learning that she was calling 911. I was then called to the scene to attempt a K9 track for Mr. Brogan who was described as wearing blue jeans and an orange t-shirt. Mr. Brogan was also described as highly intoxicated. The track was short (less than 200 yards) and Mr. Brogan was located in the woods behind the apartment. At the time Mr. Brogan was located he was ordered to come out of the woods with his hands up on two occasions and failed to comply. I could not see Mr. Brogan at this time but believed that he was in the woods due to the change in PSD Spike's behavior (air scenting). PSD Spike was sent into the woods on lead in case Mr. Brogan was to change his mind and give himself up. Mr. Brogan chose not to do so and was bitten initially on the forearm by PSD Spike. Although I could not see this bite I believe Mr. Brogan jerked his arm out of PSD Spike's mouth causing PSD Spike to re-engage Mr. Brogan on the bicep area harder than the first bite. I also believe that Mr. Brogan attempted to jerk his arm out of this bite as well but was unsuccessful in doing so and only caused tearing to the skin and increasing the fight drive in PSD Spike. When Mr. Brogan was pulled from the woods he immediately became compliant thus PSD Spike was removed from the bite.

Mr. Brogan stated freely that he was aware that there was a police dog looking for him and could see officers with flashlights but believed the dog would not bite him. Mr. Brogan was highly intoxicated and admitted to having consumed several beers stating, "I'm drunk, I ain't gonna lie about that." A brief history was pulled on Mr. Brogan and he has fled from and hidden from the Franklin Police on several different occasions and also has a history of theft. Mr. Brogan had several opportunities to simply give up and not be apprehended by canine but chose not to do so. Mr. Brogan stated not only at the scene but at the hospital as well that he should have just given up.

Mr. Brogan committed a crime of violence injuring a household member with a weapon, whether felony charges will be filed or not is unknown.

Narrative Summary – Include detailed description of officers action: See attached statement of Officer Clark. Officer Anderkin, Office 4r Martin, and myself were assisting Clearcreek Twp. PD in reference to a Breaking and Entering, and possible vehicle thefts. We also were requested to assist Waynesville PD to set a perimeter for a suspect who had fled from a stolen vehicle, and attempted to steal other vehicles. Officer Anderkin and myself were in Waunestown. Officer Clark and Officer Martin were on Silver Lake. I responded to Silver Lake once I heard the suspect there was in custody and that he had been bitten by Spike. I spoke with the suspect and he advised that he was bitten by the dog, even though he had not done anything. He refused to be transported by a squad. Clearcreek Twp. PD transported subject to hospital and then to jail. Officer Clark also advised that the subject was tased by either a Warren County Deputy or a Clearcreek Twp. PD Officer during the time the subject was being bitten by Spike.

Incident Narratives

Team Clark/Spike

Upon arrival I was advised that there had been several vehicles stolen in the area along with attempted burglaries. Officer B Wanless had witnessed a stolen Jeep vehicle near 73 and Silver Lake Dr. The Jeep fled from Officer Wanless and crashed into a pond nearby with the suspect fleeing on foot. Lt. Hatfield from the Warren County Sherrifs Office then observed a subject matching the description of the suspect running through a field near the pond. Sgt. Houndshell, Officer Cornett, and myself walked out into the field where the suspect was last seen and PSD Spike was deployed in the area and instructed to track PSD Spike immediately picked up the track and began tracking hard to the south toward Equine Dr. PSD Spike tracked approximately 100 yards until reaching a fence where he showed much interest in getting over. I raised PSD Spike over the fence and he again picked up the track continuing south into a very dense patch of

K9 Deployment Report

Springboro Police Department

woods. PSD Spike then began to pull harder and was about 10 feet out on my tracking line. I could not see where PSD Spike was at this time and about 10 feet into the woods I felt my line give slack and heard a male subject yelling, "Get the dog off me, he's biting me." Not knowing if the subject was armed or not I approached him first to get a visual before attempting to remove PSD Spike from him. Upon reaching the suspect I observed him lying on the ground under a log and PSD Spike had a full bite on his forearm. The suspect had his right hand on PSD Spike's head and struck him once in the face. I then yelled at the suspect to "stop fighting my dog." The suspect would not remove his hand from PSD Spike's face and I forcefully pushed his hand away. I then ordered the suspect to stand up so that I could remove PSD Spike from the bite. The suspect started to stand up and I heard a taser deployed from behind me. When PSD Spike heard the taser he spit the bite and the immediately re-engaged the suspect in the stomach. I then choked PSD Spike off the bite and the suspect was taken into custody. The suspect had a bleeding injury on his ankle which I am not sure was caused by PSD Spike or when the suspect crossed the fence or ran from the moving vehicle. Pictures were taken of the suspect's injuries and he was cleared by the Clearcreek Squad. The suspect was then turned over to Clearcreek PD.

Narrative Summary – Include detailed description of officers action: Officers were called to 5 Clearcreek Franklin Apartment 2 on the front of building 5. I exited my patrol car and gave chase, locating a male subject in the rear of building 5 trying to gain entry into apartment #2. The male subject glared blankly at me as I asked him to "come here". The male subject, identified as Mr. Menz, stated "what are you doing in my yard, fuck you motherfucker". At this point I recognized that Mr. Menz was holding an infant with his left arm by the upper torso under the infants chin and around the neck. I began giving verbal commands for Mr. Menz to put the baby down and Mr. Menz became more enraged. Mr. Menz approached me holding the baby with the left arm and clinching a fist with the right hand. Mr. Menz was screaming "fuck you" "motherfuckers" "shoot me fucking shoot me". I continued to order Mr. Menz to put the baby down and Officer Martin and Officer Clark with K9 "spike" arrived. Mr. Menz was swinging the baby from side to side as he wildly twisted his body in an effort to watch all Officers. During this time he continued to hold the baby by the neck and head with his left arm wrapped around it. Mr. Menz continued to scream "shoot me" "and fuck you" when commands to release the baby were given. Mr. Menz, while still holding the infant with his left arm, reached out and grabbed a metal patio chair with his right hand and threw it at me. Officer Martin was able to work his way closer to Mr. Menz and Mr. Menz directed his attention to Officer Martin refusing to release the infant and trying to get past all Officers. When Mr. Menz turned to push Officer Martin, I was able to strike Mr. Menz in the upper portion of his back with my flashlight hard enough to stun Mr. Menz and give Officer Martin time to grab the infant from Mr. Menz. After Officer Martin had the infant Mr. Menz reached to grab the infant from Officer Martin. At this point I grabbed Mr. Menz and we began to struggle. I was ordering Mr. Menz to get down and Mr. Menz was struggling with me failing to comply to verbal commands. I attempted to place Mr. Menz onto the ground but Mr. Menz pushed me off as we both fell to the ground. Mr. Menz then began to kick at me and attempt to get up. At this time K9 Officer Clark released K9 Spike who was able to deliver a bite to Mr. Menz in the upper right portion of his thigh as Mr. Menz kicked at K9 "spike". After being bit by K9 Spike Mr. Menz continued to struggle and refused to cooperate. He refused to stop struggling and kicking and was able to roll onto his stomach and would not bring his hands out from underneath him. During the struggle K9 spike lost the bite on Mr. Menz and when Mr. Menz rolled onto his stomach K9 spike engaged the bite, this time to the upper rear portion of the left thigh just below the buttocks. Officer Martin and myself attempted to gain control of Mr. Menz's hands as Mr. Menz continued to fight. We struggled with Mr. Menz's hands and several times as we pulled them from underneath him he was able to break free and get them back under him. After numerous attempts we were able to get control of his hands and cuff Mr. Menz.

Narrative Summary – Include detailed description of officers action: Officer's Clark, Anderkin, Martin, and myself were advised by dispatch that WCSO was in pursuit west bound on SR 73 towards Springboro from Clearcreek TWP. Officers from Green County were pursuing the vehicle earlier in the evening on SR 42 but terminated the pursuit. We took position on SR 73 at Stonridge to deploy stop sticks. We were requested by WCSO to deploy stopsticks. Officer's Clark, Martin, and Anderkin successfully deployed the stop sticks striking the three remaining tires on the vehicle. Springboro units fell in behind the WCSO, and Waynesville units traveling west bound on SR 73. The vehicle stopped in the parking lot of Jonathon Wright Elementary. Springboro units took a position of cover as WCSO units approached the driver ordering the suspect out of the vehicle. The driver did not exit the vehicle. WCSO units then physically removed the driver, identified as Ronald Bradley. Mr. Bradley was uncooperative and not following the Deputies commands after he was taken to the ground. He was resisting by not following verbal commands, rolling on the ground, not putting hands behind his back as ordered, and tucking his hands between his stomach and the ground. Mr. Bradley was tased by WCSO, Clearcreek TWP, and Waynesville. The taser appeared to have little to no effect due in part to the heavy jacket worn. Officer Clark then deployed K9 Spike and the suspect was bit on the left shoulder. Mr. Bradley then immediately began to comply. Officer Clark then removed K9 Spike from his bite. Mr. Bradley was then handcuffed without further incident. Mr. Bradley was taken to Bethesda Warren County for treatment and released into the custody of Green County for the earlier pursuit.

Officers present:

Det. Hatfield-WCSO
 Det. Black-WCSO
 Det. Wiseman-Waynesville
 Det. Hensley-CCTWP
 Det. Coronett-CCTWP

Several other WCSO units, and one other CCTWP unit was also on scene, of which I do not know names.
 Det. Turpin, Officer's Clark, Martin, and Anderkin of Springboro PD.

Comments	Deep punctures to left shoulder area	

Incident Narratives	
Team	Clark/Spike
High speed pursuit initiated by Green County SO and Xenia Police Pursuit was terminated by Greene County and later picked up by Lt Hatfield of the Warren County Sheriffs Office. The suspect vehicle was pursued south on Rt 42 and then West on Rt 73. I set up with stop sticks at Rt 73 and Red Lion Five Points Rd. The suspect vehicle was hit with stop sticks three times before reaching my location by Deputy Smith, Officers Anderkin and Martin, I was able to throw one stick out successfully striking the last remaining tire I joined the pursuit which continued west on 73 and per Lt. Hatfield's request I moved up behind the lead vehicle in case the suspect was to crash and flee on foot. The pursuit continued west until reaching 741 and proceeded south on 741 to west on North St. and then north on Florence where the suspect stopped in the parking lot of Jonathan Wright Elementary. I immediately deployed PSD Spike on a harness and looked to see	

K9 Deployment Report**Springboro Police Department**

if the suspect was going to attempt to flee on foot. The suspect did not flee but refused to come out of the vehicle. The suspect was forcefully removed from the vehicle where he began physically fighting and resisting officers. The suspect was tased but the prongs did not make contact with his skin and he was not affected. The suspect tucked his hands under his body and would not show his hands. I then gave PSD Spike the command to go forward and he bit the suspect on the left shoulder. The suspect immediately showed his hands upon being bitten and started complying. PSD Spike was then choked off the bite and the suspect was handcuffed. Upon a search of the suspect it was discovered that he had a knife in his pocket. The suspect sustained deep punctures to the left shoulder and was treated by Clearcreek Ems who transported him to Bethesda Warren County. The use of PSD Spike in this instance outperformed the use of the taser due to the heavy coat the suspect was wearing. The use of PSD Spike stopped the resistance immediately.

Comments**Incident Narratives****Team** Clark/Spike

On 6-19-05 I was advised by dispatch that Detective Parker was following a vehicle containing a Derrick Winstead who was wanted by the Warren County Sheriffs Office for probation violation Detective Parker contacted me by cellular phone and informed me that the vehicle was traveling north on N. Pioneer. Officer Anderkin and I both performed a felony stop on the vehicle and immediately the wanted suspect stepped out of the passenger side of the vehicle I ordered Mr. Winstead to put his hands in the air and he complied I then ordered Mr. Winstead to turn around and face away from me and he did so for a brief moment but then turned around and started

K9 Deployment Report

Springboro Police Department

asking what he did. I ordered Mr. Winstead to walk backwards and warned him that if he did not comply I would send my police canine. I warned Mr. Winstead three times to walk backward or I would send the dog. Mr. Winstead did not comply and then fled from the vehicle towards the apartment complex. PSD Spike began to bark as soon as Mr. Winstead ran and I hit my emergency door popper for PSD Spike to be released. Unknown to me Officer Anderkin had started chasing Mr. Winstead and crossed into the path of PSD Spike. PSD Spike targeted Officer Anderkin and engaged him. I ordered PSD Spike to down and not bite. Officer Anderkin was bitten slightly on the hand with minor injury. Mr. Winstead ran around an apartment building and entered an apartment uninvited and told the occupants not to answer their door. Mr. Winstead hid in an upstairs closet. The occupants let us into the apartment where Mr. Winstead was placed into custody. Mr. Winstead claimed that PSD Spike bit him but at no time did I observe PSD Spike bite Mr. Winstead. Mr. Winstead had a slight scratch on his forearm but no blood. This was most likely a result of Mr. Winstead hiding in the apartment.

On 1-8-06 I was advised that Monroe PD was in pursuit on I-75 northbound at speeds of 115 mph. The vehicle exited at 122 and the vehicle headed east. Sgt. Turpin, Officer Anderkin, and myself positioned ourselves on 741 with stop sticks in case the vehicle went north. The suspect was wanted on several felony charges and had already eluded Miami Township Police earlier in the evening during a pursuit. At some point the suspect vehicle ran over placed stop sticks and the driver eventually had to come to a stop near 317 W St Rt 122. The driver fled the vehicle in

K9 Deployment Report**Springboro Police Department**

an unknown direction and was already out of sight when Sgt Hensley, the first on scene, arrived. Sgt. Hensley immediately called for PSD Spike and myself to respond for a track I advised the units that were on the way to start a large perimeter before my arrival Several Warren County Deputies arrived on the scene before I did and Sgt. Hensley informed them that a K9 was on the way and to start a perimeter. The Deputies disregarded Sgt. Hensley's request and ran in different directions on foot through the yards near the vehicle I then arrived on scene and deployed PSD Spike in the area attempting to pick up a track PSD Spike began tracking hard to the north between 122 and the Warren County Carrer Center where I located a Warren County Deputy. Any track to the north was contaminated by the deputy at this point and nearly 10 minutes of nose time wasted. I deployed PSD Spike across the road to the south of 122. PSD Spike began tracking well and lost the track on a concrete driveway. I was unable to locate the track again after this and Sgt. Hensley called for a helicopter to respond. Hamilton County dispatched a helicopter and the suspect was located in a woodline but the pilot had his direction confused Sgt. Hensley advised all units to stay in their vehicles and maintain a perimeter while he was communicating with the helicopter pilot The pilot advised that if Sgt. Hensley, a Monroe unit, and the K9 team would start moving toward the woodline he would shine down the spotlight once we were close to the suspect. We left on foot and made our way toward the treeline The pilot stated we were 15 yards out and that the suspect was now moving I began shouting K9 warnings and sent PSD Spike for a search of the area. Due to the fact that the suspect was no where near us PSD Spike frustrated and came back to me. Sgt. Hensley lurched forward and was bitten by PSD Spike on a gloved hand. I immediately ordered PSD Spike off the bite and continued to move forward. It soon became apparent that the helicopter pilot was not seeing us in his flier but two Warren County Deputies and one Clearcreek Officer who had disobeyed a direct order from the scene commander to stay in their vehicles. The three officers had left their vehicles and the helicopter pilot was viewing their movements and not ours. The suspect was taken into custody by these officers. Due to pure glory seeking these officers accomplished destroying a track causing the scene commander to be bitten, and wasting valuable overtime pay. Sgt. Hensley was wearing kevlar and leather gloves preventing punctures to the hand It should be noted that four hours before the incident occurred PSD Spike performed a training track which was unknown to me of over 1/2 mile. The track was flawless and the decoy was located and apprehended

Continued to flee after warnings given

Incident Narratives**Team** Clark/Spike

Upon arrival I discovered a crashed vehicle between the north bound exit ramp to 123 and I-75 in the grassy area. A Sharonville PD Officer was on the scene and stated that one black male had fled from the vehicle on foot toward Wendy's. Officer Mike Schartner from Franklin PD and the Sharonville Officer accompanied PSD Spike and myself on the track I casted PSD Spike in the area where the vehicle had crashed and he immediately began tracking hard toward Wendy's and an abandoned truck stop. We crossed the fence and continued to track hard to an area between

K9 Deployment Report

Springboro Police Department

Wendy's and MPH Crane. The area consisted of very tall grass and some wooded areas I began observing tall grass that had been recently layed down and PSD Spike began bounding through the area air scenting. PSD Spike then began back tracking toward MPH Crane and made an immediate left turn toward Dalton Direct Flooring. Once behind Dalton Direct PSD Spike began pulling much harder toward the side of the building. Upon reaching the side of the building PSD Spike's head rose and he came off his feet. I then observed a black male running between two semi trailers. I shouted loudly twice, "Police, stop or I will send the dog." I could not get another warning out as the male had already rounded the corner of the building and was out of my sight. PSD Spike was released and instructed to apprehend. I ran around the corner of the building and observed the male trip and fall to the ground in very tall weeds. PSD Spike had bitten the male on the shoe and before I could reach him he kicked the shoe off. PSD Spike spit the shoe and re-engaged the male on the knee area as he attempted to get back up and run. The male was instructed to place his hands behind his back and he complied. Officer Schartner handcuffed the suspect and PSD Spike was removed from the bite. An ambulance was called to the scene and photos were taken of the injuries before the suspect was transported to Bethesda North Hospital by JEMS escorted by the Sharonville Officer.

Incident Narratives**Team Clark/Spike**

I initially met with WCSO and Franklin units at Save A Lot where I was briefed on the call A suspect from an assault was believed to have broken into a residence at 805 Union Rd and was possibly hiding inside the residence. The suspect was believed to be armed with a knife and possibly under the influence of methamphetamine A perimeter was established around the residence and the homeowner opened the door for us The homeowner stated that no one else had permission to be inside the residence. Audible K9 warnings were shouted inside the residence

K9 Deployment Report**Springboro Police Department**

and I received no response. PSD Spike was then sent in for a search of the residence. Once the lower floor was cleared PSD Spike worked his way up the stairs where Deputy Black and I again announced ourselves as police officers with no response. There were three bedrooms on the upper floor and all three doors were shut. The first two rooms were cleared and we made our way to the third bedroom located toward the front portion of the residence. I opened this door and PSD Spike entered the room. PSD Spike first went to the left rear corner and began his search from there. I then shined my flashlight in the room and observed a male matching the description of the suspect laying in a bed shirtless with his hands behind his head and under a pillow. I ordered the subject to show me his hands and he stared at me blankly. Deputy Black also ordered the suspect to show his hands and he still did not comply. I ordered PSD Spike to engage the suspect after failing to show his hands. PSD Spike engaged the suspect in the right portion of the chest just above the nipple and pulled him off of the bed. The suspect then began trying to pry PSD Spike's mouth off of him and started kicking his feet at me. I ordered the suspect several times to stop fighting my dog and he continued his behavior of trying to pry Spike from the bite. The suspect then reached his right hand up toward the front of the bed as if he were reaching for something. I ordered the suspect to keep his hand where I could see it and he continued to reach for the front portion of the bed. It was approximately this time that the skin on the suspects chest tore free and PSD Spike engaged his right arm. The suspect then began fighting harder and grabbed PSD Spike's muzzle squeezing it tight. The suspect was ordered to stop fighting my dog again and he finally decided to give up. I informed the suspect that he would need to remove his hand from PSD Spike's face before I could call him off the bite. The suspect removed his hand and PSD Spike was immediately outed from the bite. The suspect was taken into custody without further incident. After being taken into custody the suspect was asked why he did not acknowledge my warnings and he stated that he did not hear me. This seemed odd due to the fact that many neighbors in the area did hear me and came outside to see what was happening. The suspect was then transported by ambulance to Middletown Hospital where he was treated for his injuries.

Incident Narratives

K9 Deployment Report**Springboro Police Department****Team Clark/Spike**

Upon arrival I was advised by Officer Flora that there was a perimeter in place and provided a description of the suspect. I was advised that the suspect had a felony warrant and had fled on foot headed east. The subject had been hit with a taser to no effect and had pulled the probe out before running. I began the track where the officers had last seen the suspect (Robert Turner) and PSD Spike began tracking hard to the east across the railroad tracks. After crossing the railroad tracks we crossed a fence and PSD Spike began tracking down an old set of railroad tracks which ran parallel to Elm Dr. PSD Spike tracked down the tracks for approximately 100 yards and made an abrupt left turn through the woodline and into the backyard of 561 Elm Dr. Upon entering the back yard of the residence I observed a large male subject in the rear window look out at us and then turn and run towards the front of the house. Several more officers arrived at the residence and a perimeter was established. Just as the perimeter was put into place I observed all of the lights in the residence go out. Sgt. Slyder and Officer Shartner knocked on the front door for several minutes and also had the dispatch center call the residence. A short time later a young male opened the front door and spoke to the officers. The young male advised that no one else was in the residence and he did not care if they looked. I was advised by a Carlisle officer that he believed there may be guns inside the residence also. I approached the front door with PSD Spike and the young male stated that his father was inside the residence and that his father was the person we were looking for. I shouted very loud audible K9 warnings into the residence and received no response from anyone. The warnings were captured on the audio portion of my in-car video system at approximately 0043. After receiving no response I deployed PSD Spike into the residence and he immediately alerted on a closed door. I attempted to open this door, which was not locked but it was clear that someone was holding it shut from the inside. I pushed the door hard and it opened enough to reveal a tattooed forearm pushing against me. PSD Spike got enough of his head in the crack to bite the forearm and the man started screaming. The male then tried to shut the door on PSD Spike's head and I threw my shoulder into the door forcing it all the way open. PSD Spike then re-engaged the suspect high in the bicep area and the suspect began vomiting all over himself. The suspect was ordered out of the bathroom and into the hallway where he gave up and PSD Spike was removed from the bite. The suspect was taken into custody and two other males in the rear bedrooms and decided to announce themselves at this time. These suspects gave up without incident. The male subject who was apprehended by PSD Spike was the same suspect who had ran from Carlisle PD earlier. Mr. Turner still had a blood spot on his leg from the taser probe and several cuts on his stomach most likely from running through the woods and crossing fences. Photos were taken and Mr. Turner was transported to the hospital to be treated.

Incident Narratives**Team Clark/Spike**

Upon arrival I learned that an officer had attempted a traffic stop on a vehicle and the vehicle fled causing a short pursuit. The vehicle was occupied by two white males and they pulled into a

K9 Deployment Report**Springboro Police Department**

parking lot where both fled on foot in different directions Right before deploying PSD Spike to attempt a track an officer advised that he was in foot pursuit with one of the subjects headed north accross Lyons Rd. The Officer lost the subject in the woodline north of Lyons Rd and just east of my location. I responded to meet the officer who accompanied me on the track PSD Spike was deployed where the subject was last seen and began tracking north into the woods PSD Spike tracked hard through the woods, through a creek bed, and out into the rear yards of an apartment complex. PSD Spike tracked accross the rear of the complex for approximately 600 yards and made an abrupt turn to the west between the buildings PSD Spike tracked accross the asphalt parking lot and onto a sidewalk where he stopped at a large bush and began airscenting. PSD Spike then back-tracked towards a maintenance stairwell leading toward the basement of the building. I shined my light down the stairwell and at the bottom was a white male laying on his back covered in mud and soaked in water. I ordered the male to put his hands up where I could see them or I would send the dog. The male complied and put his hands in the air. I then ordered the male to roll onto his stomach and face away from me and not to put his hands down The male rolled onto his stomach and in one very quick motion plunged his right hand into his pocket and started to roll back to his back. PSD Spike was released and engaged the suspect on the right calf area of his leg. The subject screamed, removed his hand from his pocket, and the backup officer and I approached him with guns drawn. The suspect was placed into custody and PSD Spike was removed from the bite. A later search of the suspect revealed a very large bag of powder cocaine in his front right pocket. The suspect was transported to the hospital and photos were taken of his injuries. I attempted a track of the second subject but was unsuccessful in locating him. The second suspect forced entry into a retirement home while fleeing He was identified as Jeremy Gibbs of Elmwood Dr in Springboro Miami Township has felony burglary charges on Mr. Gibbs.

Incident Narratives**Team Clark/Spike**

On above time and date Officer Anderkin and myself were dispatched to a possible domestic in progress at 145 E North St. Upon arrival the neighbors advised us that there was a male subject banging very loudly on his neighbors door. The neighbor advised that he believed the person was trying to break into the residence. He (the neighbor) went on to say that someone had previously broken into the residence. I looked at the front door and observed that there was extensive damage to the storm door and it was crushed in, the hinges were bent and the handle was

K9 Deployment Report**Springboro Police Department**

broken/not working properly. When I looked at the side of the residence I noticed what appeared to be a place where someone had urinated on the side of the house. The neighbor advised us that when the suspect had heard our sirens he ran from the front of the house. I deployed PSD Spike on the east side of the residence and he immediately began tracking hard southwest across the back yard of the residence where I observed the rear door of the residence had also been tampered with and left open. PSD Spike tracked approximately 100 yards before reaching a fence and air-scenting. PSD Spike began attempting to scale the fence which was approximately six feet high. I informed officer Anderkin that I believed the suspect was somewhere near on the opposite side of the fence. PSD Spike then came down hard to the left, under a tree and some logs which were next to a detached garage and engaged the suspect on the lower portion of the calf. The suspect began kicking his legs back and forth and I ordered him very loudly to show me his hands. The suspect kicked several more times making contact with PSD Spike on the head with his right foot. PSD Spike came off the initial bite and engaged the suspect higher on the thigh to avoid being kicked any further. The suspect then immediately complied and put his hands up. PSD Spike was then immediately removed from the bite. After the suspect was taken into custody I asked him why when we were right next to him he didn't just give up. The suspect stated that he was asleep. The suspect was transported to Middletown Hospital where he was treated. I responded to the hospital to photograph the injuries and further question the suspect. At the hospital the suspect stated to me in front of hospital staff that he ran because he was afraid he was going to be taken to jail. He further stated after looking at his leg, that he wished he would have just screamed at me when he saw the dog coming toward him. I then asked the suspect why he had not just given up before being bitten and he said that he didn't know but if he could do it all over again he would have yelled at me because that was one "bad ass dog". The suspect stated that he had made a bad decision and that he was just trying to give the homeowner her keys back. I informed the suspect that he would be facing attempted burglary charges and released him at the hospital.

NARRATIVE

On 10-21-2007, I responded to 145 East North St in reference to a possible domestic in progress. While en route, dispatch indicated that the neighbor made the call and that there had been previous calls to the above address for domestic violence.

Upon arrival, the complainant, who stated that a person was beating the front door and that the victim had previously told him that the suspect was going to kill her, met me. He stated that he has had conversations with the victim several times and advised her that he would call the police if he heard anything unusual. The complainant also explained that an unidentified person had broken into the above address two weeks prior when the victim was not home.

At this time, officer Clark and myself began to examine the door. I noticed that the front screen door had been kicked in and was damaged. I attempted to turn the knob on the front door but it was locked and felt like it had been kicked or an attempt to break the door down was made due to the way it shook back and forth in the frame. I walked to the east side of the residence and noticed fresh footprints leading south through the yard and I observed what appeared to be urine on the wall of the same side of the house. I gave further details to dispatch and attempted to make contact with the victim. After no answers, I was able to look in the front window and I noticed a female lying on the bed. The female was covered to her head with sheets and all I could see is her blond hair. I hit the frame of the window and knocked several times but the female did not acknowledge or move. At this time I assisted officer Clark on a K-9 track.

The K-9 led us directly to the rear yard, where I noticed that the rear door had been damaged with items lying beneath. The K-9 responded straight to the yard directly behind the above address, where the suspect was located, lying face down and attempting to hide under a tree and leaves. The suspect was given commands but he failed to comply. The suspect suffered a dog bite to his left calf area and he was subsequently hand-cuffed, read his Miranda Rights, and walked to the police cruiser. While waiting for a medic for the suspect's injuries, he stated that he was drinking beer at the bar down the street and was there to wake his girl friend up after initially denying being there. He stated that he was knapping in the yard and that is why he did not respond to our commands.

After several attempts, we were able to contact the victim. She stated that she was at the bar with the suspect earlier and a verbal argument ensued and that is when she left to the residence. She stated that they do have a child together and that she was ignoring him when he was attempting to contact her.

The suspect was transported to the Middletown Hospital for medical treatment. Officer Clark also responded to Middletown Hospital to continue the investigation.

Attached are pictures of the damage caused to the residence and the injuries the suspect suffered.

These events occurred in the City of Springboro, County of Warren, State of Ohio.

Ptl Anderkin/132.
